PROFESSIONAL EXPERIENCE

NextGen Consulting Inc., Washington DC-Baltimore Area June 2022 - Aug 2023
IT & Operations Intern

- Resolved 200+ technical support issues for users, documenting solutions to improve future issue resolution
- Supported mobile application development through testing, troubleshooting, and feedback
- Assisted with IT systems setup, account configuration, and basic troubleshooting

NightStar Solutions, Ellicott City, MD May 2026 - Present
Founder

- Built and maintain a small web and technology project brand focused on websites, digital setup, and IT-focused learning projects
- Develop project documentation, service pages, and client-facing materials for future small business website work
- Use the brand as a portfolio platform for web development, cloud, cybersecurity, and IT infrastructure projects

Howard Community College Campus Store / Slingshot, Columbia, MD Aug 2024 - Present
Operations Associate

- Use Juniper and store operations software to receive merchandise, fulfill orders, update inventory records, and support back-end store operations
- Manage order fulfillment, receiving, stocking, and inventory accuracy for textbooks, merchandise, and course materials
- Assist students, faculty, and staff with purchases, course material support, and issue resolution during high-volume semester rush periods

The UPS Store, Clarksville, MD Sep 2025 - Present
Associate

- Process domestic and international shipments using shipping/logistics software, including package details, customs information, labels, and service options
- Assist customers with shipping, packaging, printing, mailbox services, and issue resolution in a high-volume retail environment
- Handle transactions accurately while maintaining attention to detail, service quality, and delivery requirements

PROJECTS

AWS Static Website Deployment - Terraform, AWS S3, CloudFront, Route 53, IAM
• Provisioned AWS static website infrastructure using Terraform, including S3 hosting, CloudFront content delivery, DNS routing with Route 53, and IAM access controls.

Home Network DNS Filtering Project - Raspberry Pi, AdGuard Home, Unbound, DNS, DHCP
• Deployed local DNS filtering with recursive DNS resolution to improve privacy, block trackers, and practice networking configuration.

Self-Hosted Service Monitoring Dashboard - Docker, Uptime Kuma, Linux, Network Monitoring
• Built a Docker-based monitoring dashboard to track uptime, availability, and health for homelab services.

LEADERSHIP & HONORS

Maryland House of Delegates — Volunteer Staff | Dean's List | FBLA National Qualifier
