AMMAAR REHMAN

Ellicott City, MD | (301) 768-5445 | ammaarrehmanf@gmail.com | linkedin.com/in/ammaarrehman | gitlab.com/ammaarrehman

TECHNICAL SKILLS

Security & Cyber Readiness: NIST Cybersecurity Framework, CIS Controls, Discover5 and Ready5 readiness assessments, EDR/MDR, MFA and Conditional Access, SPF/DKIM/DMARC, DNS filtering, backup and restore
Cloud & Infrastructure: AWS (S3, CloudFront, Route 53, IAM, EC2), Terraform, Docker, Linux, infrastructure-as-code
Networking & Monitoring: DNS/DNSSEC, AdGuard Home, Unbound, keepalived (VRRP), Tailscale, Prometheus, Grafana, Uptime Kuma
Programming & Tools: Python, JavaScript, HTML/CSS, Java (basics), Git/GitHub, VS Code, Google Apps Script
AI & Automation: Claude API, Claude Code, AWS Kiro, prompt design and evaluation, AI-assisted development

PROFESSIONAL EXPERIENCE

Cyber Ready Clinic, Maryland
Cyber Security Analyst, Internship Cohort Sep 2026 - Present

- Support nonprofit cyber-readiness assessments using the Discover5 business-risk and Ready5 capability frameworks, with findings aligned to the NIST Cybersecurity Framework and CIS Controls.
- Analyze and document capability gaps across endpoint, identity, email, edge, and response controls, including EDR/MDR, MFA and Conditional Access, SPF/DKIM/DMARC, DNS filtering, and backup and restore testing.
- Participate in client engagements alongside senior practitioners, including leadership intake interviews, capability discussions with client IT teams and MSPs, and close-out briefings.

NextGen Consulting Inc., Washington DC-Baltimore Area
Cloud & AI Operations Intern May 2025 - Present

- Use Claude, AWS Kiro, and AWS services to investigate errors, summarize issues, improve documentation, and support active cloud projects.
- Run configuration checks, service testing, and issue triage; translate technical problems into clear next steps for non-technical users.

Information Technology Operations Intern June 2024 - May 2025

- Resolved 200+ user issues spanning account configuration, access, and mobile app troubleshooting.
- Tested app functionality, documented bugs, and built support documentation **to reduce** repeat-issue resolution time.

Howard Community College Campus Store / Slingshot, Columbia, MD
Campus Operations Associate Aug 2024 - Present

- Operate order, fulfillment, and inventory systems while troubleshooting student, faculty, staff, and department issues during high-volume periods.

SELF-DIRECTED PROJECTS

Self-Hosted Homelab - Raspberry Pi 5 (x2), Linux, Docker, keepalived, AdGuard Home, Unbound, Prometheus, Grafana

- Built high-availability DNS across two nodes using keepalived and a VRRP floating IP; tested automatic failover and failback, with configuration sync between nodes every 10 minutes.
- Run AdGuard Home in front of recursive Unbound with DNSSEC, plus Prometheus/Grafana, Uptime Kuma, and Tailscale for service health, observability, and remote access.

Claude Intake Triage Assistant - Claude API, Google Apps Script, Google Forms/Sheets, Python

- Built a Claude-powered workflow that turns free-text community help requests into structured, reviewable records with category, urgency, summary, next steps, and human-review flags.
- Wrote a 15-case Python eval harness; prompt restructuring raised multi-need coverage from 0% to 90% and classification accuracy to 100% across the test set

trading-lab - Python, pre-registered backtesting, CI self-tests

- Built a pre-registered backtesting framework for nine trading experiments, committing acceptance criteria before loading market data and using automated self-tests to catch implementation errors; all nine were rejected under predefined rules before capital was deployed.

AWS Static Website Deployment - Terraform, AWS S3, CloudFront, Route 53, IAM

- Provisioned a private S3 site served over HTTPS through CloudFront with Origin Access Control, DNS, and access controls entirely in Terraform; documented repeatable deployment and teardown.

EDUCATION

University of Maryland, Robert H. Smith School of Business, College Park, MD Expected 2028
B.S., Information Systems | Starting Jan 2027 | *Smith School direct-admit criteria met*
Howard Community College, Columbia, MD Expected Dec 2026
A.A., General Studies | *GPA: 3.65* | *Dean's List*
Relevant Coursework: Accounting I & II, Economics (Macro & Micro), Business Calculus, Statistics, Marketing, Intro to Business, Computer Concepts, Python

CERTIFICATIONS

AWS Certified Cloud Practitioner | Jun 2026 **CompTIA Tech+** | Aug 2026
Ready5 Practitioner - Cyber Ready Clinic | Expected Nov 2026
Anthropic Claude Developer & AI Fluency Training | Jun 2026
